

Destiny Mabwe

Scrum Master | Agile Project Lead

Cape Town, South Africa | +27 61 820 2022 | mabwedestiny@gmail.com
PSM I | CAPM | BIS (University of Johannesburg) | English, Afrikaans, Shona
Available immediately | Open to hybrid and remote roles

PROFESSIONAL SUMMARY

Certified Scrum Master (PSM I) and CAPM-certified Project Manager with 2+ years of hands-on Scrum Master experience across commercial and academic delivery environments. Skilled in facilitating all Scrum ceremonies, managing and refining product backlogs, removing impediments, and coaching cross-functional teams — including team members with no prior Agile exposure — in Scrum principles and self-organisation. Holds a Bachelor of Information Systems (University of Johannesburg, 2025). Demonstrated ability to run sprint cycles end-to-end, protect team velocity, and maintain sprint artefacts including burn-down charts, roadmaps, and traceability matrices. Currently driving Agile delivery at Siyaya Mobility Systems.

CORE COMPETENCIES

Scrum & Agile: Scrum Master | Sprint Planning | Daily Stand-up | Sprint Review | Sprint Retrospective | Backlog Grooming | Scrum-of-Scrums

Frameworks: Agile | Scrum | Kanban | Lean-Agile | Waterfall | SAFe (familiar) | SDLC

PM Artefacts: Product Backlog | Sprint Backlog | Burn-down Charts | Roadmaps | WBS | Traceability Matrix | Risk Log

Tools: Jira | Confluence | GitHub Projects | Trello | Microsoft Office Suite | Azure DevOps (familiar)

Soft Skills: Servant Leadership | Team Coaching | Impediment Removal | Stakeholder Management | Conflict Resolution | Facilitation

WORK EXPERIENCE

Scrum Master / Agile Project Lead | Siyaya Mobility Systems Nov 2025 – Present

Cape Town, South Africa | Hybrid

Mobile and transport software company building digital solutions for the South African minibus taxi industry.

- Facilitate all Scrum ceremonies end-to-end — Sprint Planning, Daily Stand-ups, Sprint Reviews, Retrospectives, and Backlog Grooming — for a cross-functional software development team
- Own and maintain the product backlog comprising 62 items across 9 epics and 6 delivery phases, ensuring each item is refined, prioritised, and sprint-ready
- Build and maintain product roadmaps, sprint plans, and WBS artefacts to ensure full delivery visibility for stakeholders and the Product Owner
- Established a GitHub Projects delivery hierarchy (Phase to Monthly Plan to Dev Issue) with standardised branching, labelling, and auto-close workflow rules
- Produced a full Software Requirements Document (SRD) with a requirements traceability matrix to ensure feature completeness across all platform modules
- Coach and mentor development team members on Scrum values, roles, rules, and self-organisation — including onboarding team members new to Agile
- Actively identify and remove blockers and impediments to protect sprint commitments and sustain team velocity
- Collaborate with the CTO to prepare platform demos for regulatory stakeholders (NPTR operating permit process)

Scrum Master (Contract — Part-Time) | VaJere Consulting 2025

Cape Town, South Africa | Remote

Commercial Scrum Master contract engagement. Limited to 30 hours per week due to concurrent final-year academic commitments.

- Served as Scrum Master for an active client delivery team, facilitating sprint ceremonies and maintaining sprint cadence throughout the engagement
- Managed product backlog and sprint artefacts, tracked team velocity, and produced burn-down reporting for client-facing visibility
- Coordinated between Product Owner and development team to validate sprint goals were realistic, clearly defined, and achievable within each sprint
- Demonstrated ability to uphold Agile process rigour and protect team delivery under a constrained weekly schedule

Scrum Master — Final Year Capstone Project | University of Johannesburg, BIS Programme 2024

Johannesburg, South Africa

Formally appointed team Scrum Master for a multi-disciplinary final-year capstone project team.

- Facilitated all Scrum ceremonies for a cross-functional student team across a full academic delivery cycle — sprint planning through retrospectives
- Coached team members with no prior Agile or Scrum experience on Scrum values, roles, and sprint discipline, translating framework theory into practical team behaviours
- Navigated team resistance and confusion around Scrum adoption, developing strong facilitation and conflict-resolution instincts
- Maintained sprint boards and tracked deliverables to ensure the team met all submission milestones on time and to quality standard

Student Chapter Lead (Volunteer) | PMI South Africa — University of Johannesburg Chapter. 2022 – 2024

Johannesburg, South Africa

- Led the UJ student chapter of PMI South Africa: organised events, hosted PM workshops, and promoted CAPM and PMP certifications across the student community
- Developed stakeholder engagement, event facilitation, and public communication skills applicable directly to Scrum Master ceremony facilitation

Event Director (Volunteer) | Church — Easter Conference and Concert 2022 – Present

Cape Town, South Africa

- Directed an Easter conference and multi-artist concert with 300+ attendees, owning the full project lifecycle from planning through post-event retrospective
- Applied Agile-adjacent practices (Trello-based task management, delegation, iterative milestone reviews) to coordinate multi-team logistics under time and budget pressure

EDUCATION

Bachelor of Information Systems (BIS) Graduated 2026

University of Johannesburg, Johannesburg, South Africa
